SEC: AIML F

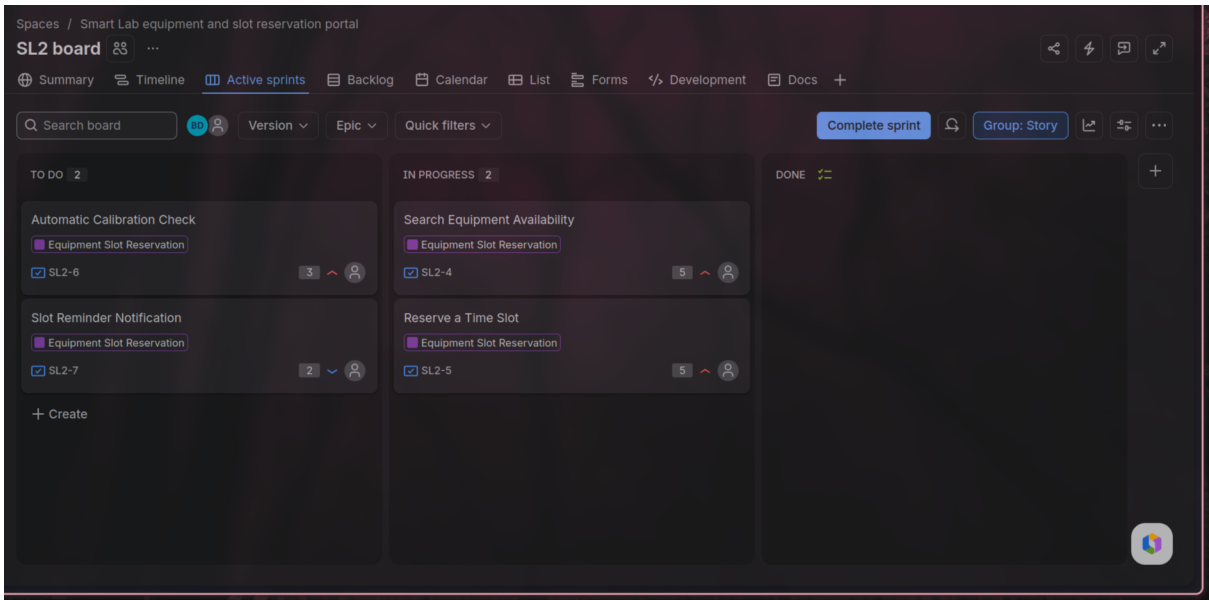

Backlog with work items with story points assigned

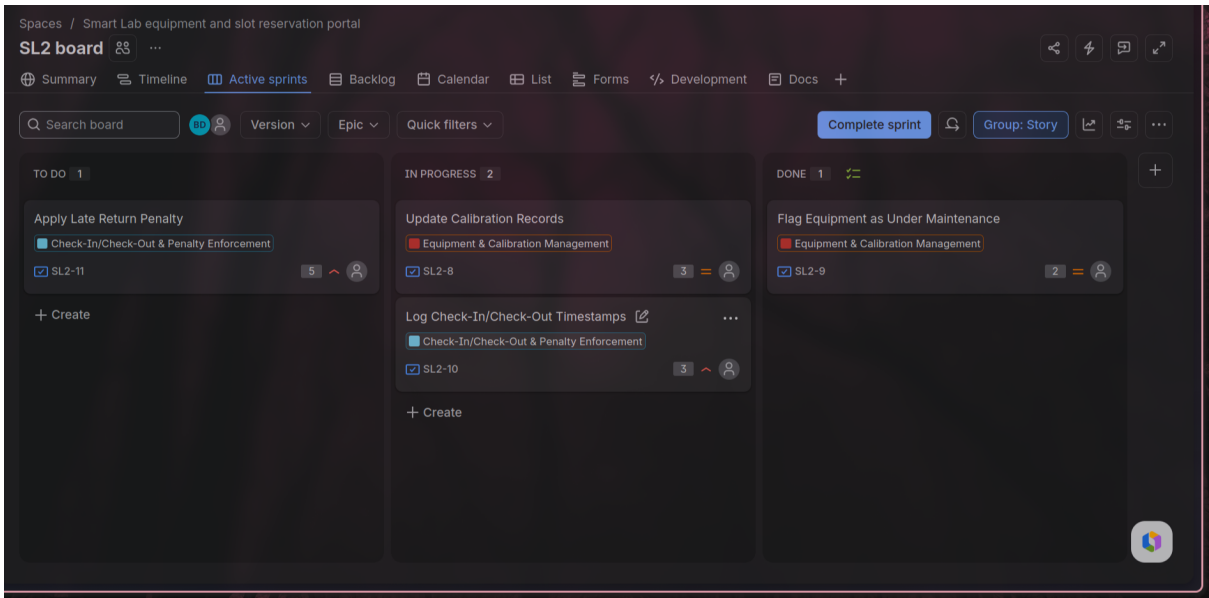

Active Sprints with tasks in To do

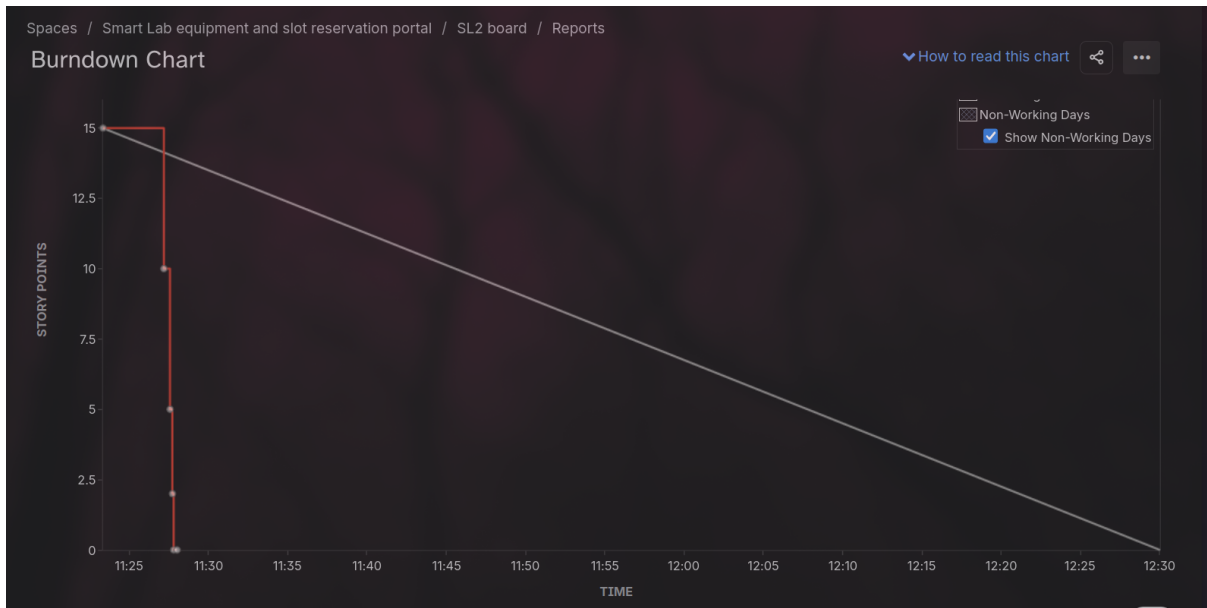

Active Sprints with tasks in Progress

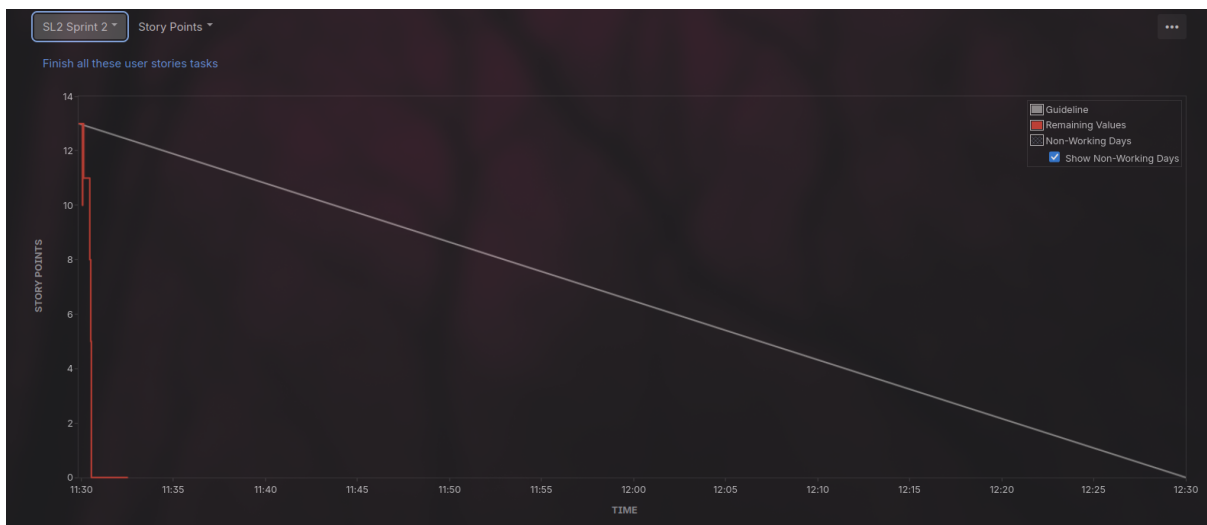

Active sprint 2 tasks

Burn down chart for sprint 1:

Burn down chart for sprint 2:

Reflection Questions:

1. Did your estimations reflect the actual effort?

Ans: Yes, based on the complexity and size of the task, assigning story points to each task accurately reflected the effort put into it

2. Was your backlog well-prioritized?

Ans: Yes, it was prioritized based on the customer needs

3. How did your simulated sprint align with your plan?

Ans: The two sprints perfectly aligned with the priorities set for each task and the deadline for each tasks .

4. What insights did the burndown chart give about your team's capacity?

Ans: The burndown chart showed us that there was a steady decline, which meant that the team consistently worked on the task and completed each task in an even and proper pace.
